

## Male pelvis

1. Pubic bone, *Os pubis*
2. Sacrum, *Os sacrum*
3. Coccyx, *Os coccygis*
4. Urinary bladder, *Vesica urinaria*
  - a) Apex of the bladder, *Vertex vesicae*
  - b) Urinary fundus, *Fundus vesicae*
  - c) Muscular layer, *Tunica muscularis*
  - d) Mucous coat, *Tunica mucosa*
  - e) Ureteral orifice, *Ostium ureteris*
  - f) Trigone of the bladder, *Trigonum vesicae*
5. Prostate, *Prostata*
6. Prostatic part, *Pars prostatica*
- 6a Urethral crest, *Crista urethralis*
7. Seminal vesicles, *Vesicula seminalis*
8. Spermatic duct, *Ductus deferens*
9. Ureter, *Ureter*

10. Urethral corpus cavernosum, *Corpus spongiosum penis*
11. Penis, *Penis*
12. Glans (penis), *Glans penis*
13. External urethral orifice, *Ostium urethrae externum*
14. Ischio-cavernosus muscle, *M. ischio-cavernosus*
15. Testicle, *Testis*
- 15a Superior end, *Extremitas superior*
- 15b Inferior end, *Extremitas inferior*
16. Epididymis, *Epididymis*
- 16a Head of the epididymis, *Caput epididymidis*
17. Pampiniform plexus, *Plexus pampiniformis*
18. Testicular artery, *A. testicularis*
19. Cremaster muscle, *M. cremaster*
20. Rectum, *Rectum*
21. Common iliac artery, *A. iliaca communis*
22. Common iliac vein, *V. iliaca communis*
23. Peritoneum, *Peritoneum*
24. Inguinal ligament, *Lig. inguinale*
25. Pectineal part of the inguinal ligament, *Lig. lacunare*
26. Femoral canal, *Anulus femoralis*
27. Lacuna of the vessels, *Lacuna vasorum*
28. Interfoveolar ligament, *Lig. interfoveolare*
